Gentlemen:

We should have mailed you a report on or before December 15th, 1920, covering our operations this year at Evans Bay, Alaska, where we pack Scotch Cure Herring. The reason for the delay in mailing this report is on account of our working at the present time to segregate the different operations and we do not want to mail this report until we can give you a correct one. However, you can depend upon our mailing this report within the next week or ten days.

Yours very truly,

SAN JUAN FISHING & PACKING CO.
